Experience

PRODUCT DESIGN INTERN

Data Science Alliance

- Designed UI systems for interactive learning experiences that made complex data science concepts more accessible.
- Created high-fidelity prototypes, user flows, and reusable design components in Figma to support product development and stakeholder alignment.
- Collaborated with engineers and nonprofit stakeholders to refine requirements and deliver production-ready design solutions.

San Diego

01/2026 - Present

PRODUCT & BRAND DESIGN SPECIALIST

Rill Insights and Design

- Developed brand and UX systems that aligned visual identity with intuitive digital experiences across client projects.
- Applied brand strategy to interface design, improving clarity, usability, and brand consistency.

San Diego

08/2025 - 04/2026

EXPERIENCE DESIGNER (BRAND & UX)

San Diego Design Week

- Designed 60+ visual and digital assets supporting a conference with 200+ attendees, improving clarity and attendee engagement
- Helped shape attendee-facing brand experiences across digital and physical touchpoints.

San Diego

04/2025 - 09/2025

Projects

PAWFINDER — Pet Adoption Platform

- Designed a mobile experience that helps users discover adoptable shelter pets through intuitive search, filtering, and personalized adoption workflows.

03/2026 - Present

RELIEFHUB - Emergency Medical Kiosk System

- Designed a physical and digital kiosk that provides accessible medical guidance in high-stress situations.
- Led user flows, interaction design, and Figma prototyping to improve clarity, trust, and usability.

09/2024 - 12/2024
